How to play destiny 2 new light

If you're confused about which is the free-to-play version of Destiny 2, New Light offers you, and if you want to know how to get access to the rest of the game content, this guide is for you. As we approach the third anniversary of Destiny 2, Bungie decided to make access to the game easier than ever creating Destiny 2: New Light, the free-to-play version released on October 1 on PC, PS4 and Xbox one. Unfortunately, it is not entirely clear which parts of Destiny 2 and its various expansions are available for New Light players, and which require an additional purchase. On this page, we hope to simplify the process for everyone. What is Destiny 2: New Light? Destiny 2: New Light is the standard Destiny 2 experience – the free-to-play version of the game. This is what you can download on PC, PS4 and Xbox One and start playing right away. Consider it as the basic version of the service. You can already try what has been made available, but Bungie expects to pay to access the rest. What you have access to in Destiny 2: New Light First of all, players in Destiny 2: New Light will be able to visit the entire solar system in free roam, which means that all planets can be visited without restrictions from the beginning. New Light readers will also have access to all Crucible (PvP) modes, maps and playlists. Game events like The Dawning, Iron Banner, etc. will be accessible. In addition, private Crucible and Gambit games can be hosted by New Light players. This covers the general front of the game, but we try to investigate further and clarify what everything really means for the content of the game. Destiny 2: New Light offers all contents of the first year of Destiny 2. This includes everything that was available two years ago, as well as subsequent expansions and everything that was added to the game during the year one. For the first year, this means: The campaignRed War, strikes and activities. The Curse of Osiris campaign, strikes and activities. Warmind's Warmind'sstrikes and activities. All Nightfalls hit one year. All year A raid, lair raid and associated equipment. All year An exotic. Basically, you will be able to access everything that, in general, was released before Forsaken. The image becomes a little more complex when we enter Persaken, but we explain everything below. Bungie also decided to insert some content pieces from Forsaken and the second year expansions in New Light, as well as the whole Year One package. From Year Two, you will receive: All Black Armed Forces. Gambit. Reckoning. The Menagerie. All equipment of the above mentioned activities, except Exotics. Only Thunderlord, Arbalest, Outbreak Perfected and Bad Juju from exotics of the year two. Destiny 2: New inaccessible content of light Now that we have finished with the content included in the Destiny 2: New Light, let's move attention to what we'll have to pay. In short, all from year two that is not listed on is content that you need to buy if you want to play. For the forgotten, we are talking about the Abandoned Complete Edition, which includes the basic version of Forsaken and all the content for Year Two. It is also quite obvious that you will have to buy Shadowkeep – the great release this year – if you want to play its content. You will need to buy Forsaken Complete Edition to access: Forsaken campaigns and missions. Two raids and lair raids. Year two hits. Falls of the year two. Exotic missions of the year two. Exotic of the year two. Everything from Year Two that is not included in New Light. How much does this cost? If you just arrived at Destiny 2 and want access to all content, you will have to spend about 60 euros. The complete edition of Forsaken costs 25 euros, with Shadowkeep costs 35 euros. And this is on it, although you can also buy the year Three steps if you want to access the content of the seasons that will arrive in the next 12 months. But this is notFor now. You do not need to own past content to access new ones – you just need to buy Shadowkeep and ignore Forsaken, if you are just interested in the new expansion. What will happen on 1 October On 1 October, all versions of Destiny 2 – regardless of how or where you got the game – will be transformed into New Light. New Light is the basic experience of Destiny 2, and this also includes those who bought the game via PlayStation Plus on PS4, and also those who downloaded it for free via Battle.net on PC. All versions of the game will receive the same updates, balance adjustments, among others. What separates your game from mine is the content to which each of us has access. If you own Forsaken, for example, you can start any mission in Forsaken history. Similarly, if you own Shadowkeep, that content will be accessible. Depending on what you choose to buy, not everything will be available for you. If you have passed Forsaken in advance, you will have no problem buying Shadowkeep on October 1 and playing its content. You do not need to buy Forsaken if you are not interested in its content or if you are satisfied with what Bungie included by Year Two in New Light. This same structure will be brought to the future, throughout the year Three, which also begins on October 1st. You can also buy a seasonal pass to access all seasons of the year three, or simply buy the seasons you are interested in. All owners of Shadowkeep get the Season of Indisturbation for free, but the following seasons of the Year Three will have to be purchased. A note on blocked font levels and content On October 1, all Destiny 2 characters will start with 750 Power. It doesn't matter if you stopped playing Destiny 2 after 2 months or if you're in the middle of the Forsaken campaign. All users will start at 750. That's what this is.to players access all the content available from the first day, including ultra difficult raids (depending on, of course, the different incursions you have how to play destiny 2 new light campaign. how to play new light mission destiny 2. destiny 2 new light how to play forsaken. how to play destiny new light. how to start destiny 2 new light. how to get destiny 2 new light. is destiny 2 new light free
