Which zodiac sign has most serial killers

There is much said and written about the characteristics of star signs, such as “Virgos never forgive, Aries people are determined” etc. But this time, we are going to tell you about real statistics! The FBI shared the birth dates of serial killers and people who show psychopathic tendencies. And as you can imagine, statistics can show which star sign is more inclined to which types of crimes. Let’s see which zodiac signs are more psycho-like! 12. Gemini Although all the bad talk about people born under the sign of Gemini, they seem to be the least dangerous of all signs. Their hands were at least blood. They simply do not experience anybody so seriously to kill or hurt. They choose maybe much more painful spot - the victims “slowly kill” his boredom and long and extensive discussions. 11. Aquarius While many people it is not clear, Aquarius is the second among the most innocent characters in the Zodiac. Although it is possible to not give so easy to be caught in the crime as members of other signs, as smart and well-concealed evidence. However, they justice is a very important item in life, but also have a very big ego that is not easy to destroy. 10. Leo For people in this sign we can say that as many dogs bark but not bite. They tend to be loud and give the impression they are very dangerous, and actually happy flee from trials. When people in the sign of Leo will kill someone, it often made to attract attention - however, are notorious for wanting to be the center of the world. 9. Libra Although people born in this sign impress righteous, kind and patient, they carry out more killings Aquarian and Lions together, which is a bit strange, it seems that patience has its limits, and Libra often become violent when someone blatantly tries to take advantage of their kindness. 8. Virgo Though act calmly and quietly, the members of this sign, according to the FBI average psychopaths and murderers very neat. However, more prone to fraud and theft, not murder. Theft and fraud, they planned to the tiniest details. 7. Pisces Many would have lied if they think that people born in this sign are sweet and kind. Some of the most famous murderers of the world were exactly the fish, for example, John Wayne Gacy, Richard Ramirez and Eileen Vurnos which killed only men. Also, people born in this sign are more prone to addiction. Fish are the most sensitive and zodiac sign. 6. Capricorn The number of killers in this sign is greater than the average. Serial killer who killed most people was exactly Capricorn. Although known for their propensity to respect the law and regulations, it seems that people born in this sign are very angry. They do not kill often, but when it came to this - go to the end. 5. Aries It’s no secret that people in this zodiac sign tend to go mad and quickly erupt. Then their anger was terrible, but did not last long, but in those moments can make everything so better to remove them. When you move away from them, they are calm and even forget why has rampage. 4. Taurus When the bull is angry, his anger is very intense. However, members of this sign are more prone to fraud, not murder. The reason for this is that love luxury and beautiful things and if they can not afford to honest work, will turn to the “other side of the law.” 3. Sagittarius We can say that the archer is among the top three signs factious, crime. But it is not interested in small, individual crimes but go to those big ones. When you kill, they do it en mass and want to call them leaders. In that sign is born, for example, Ted Bundy (serial killer, kidnapper, robber, a necrophiliac ...) 2. Scorpio FBI say that most serial killers are born in November. Among them are most archers and the rest Scorpions. People born in this sign are known as very friendly sadistic killers. 1. Cancer First, among all the maniacs of the world found people born in this sign. They usually killed because of jealousy. Prone to sudden mood changes, which is one of the main causes of problems We hope for the world where all star signs can live in peace! This is not some fictitious piece, but what the Federal Bureau of Investigation states. The agency has put out a list of most dangerous zodiac signs. An analysis suggests that the zodiac sign of the person is directly linked to the type of crime that is likely to be committed. Everyone from the most renown psychologists to armchair detectives have attempted to get inside the minds of the most infamous serial killers in order to understand what drives someone to commit the ultimate crime, and astrology offers some possible answers, as well. Top Zodiac Signs of Serial Killers by FBI When looking at the zodiac signs of serial killers, one strikingly obvious pattern stands out, that most of them were born under one of the four mutable signs: Gemini, Virgo, Sagittarius, or Pisces. The FBI analysed data in order to find the zodiac sign of couple serial killers. The signs have been divided into four different categories: Fire, Water, Earth and Air. Libra, Gemini and Aquarius are air signs: Libras have the most criminal record compared with other air signs and they are usually well-armed and very dangerous. Geminis often get involved in crimes of fraud Aquarius usually commit crimes for revenge. Capricorn, Virgo and Taurus are earth signs: Taurus is the most temperamental one and hence considered to be dangerous. Virgo is also usually heavily armed. Capricorn, on the other hand, has a bit of everything. Cancer, Scorpio and Pisces are water signs: Cancers can be very violent, Scorpions and Pisces are also quite irritable. The FBI website says Cancers are the most dangerous criminals of all of the zodiac signs, followed by Tauruses. Sagittarius comes third followed by Aries. Capricorn, Virgo, Libra, Pisces, Scorpio, Leo, Aquarius and Gemini are last in the list since their crimes are rarely associated with violence, but with frauds and scams. Cancer Passion killers: They kill almost normally and leave some distinguishing marks on the body of their victims to sign their crime. Taurus: They act on their own and are often involved in money laundering. Sagittarius: Mostly crooks or thieves. They hardly harm the victim unless they have danger to their own lives. Aries: Usually hired to commit crimes. Scorpio: Most sadistic and murderous Virgo: Usually are hackers and burglars. Libra: Usually involved in corruption and crimes relating to drugs. Gemini: Usually associated with financial frauds. Leo: Usually mingle with criminals to gain fame and recognition. Aquarius: Involved in hacking and deception. Capricorn: Involved in organised crimes. Pisces: Quite irritable and violent Inside Everyone, There’s A Killer Aries: March 21st - April 19th Impulsive and at times reckless enough in their activities, Aries is still the child that deny to grow up of the zodiac. They rely upon acknowledgement and attention that sometimes you might just want to seal them out in a dark room for it. Above all, locking-up is not a bad idea. Their impulsiveness is that type which would kill out of the time of feeling undesirable. Gemini: May 21st - June 20th Gemini in the mention in the Zodiac serial killer list - The sign that is synonymous with double character and indecisive is likewise the sign that has brought into the world probably the most serial killers we know. From David “Child of Sam” Berkowitz to Jeffery “The Milwaukee Cannibal” Dahmer, the sign of the twins is likewise a maker of a portion of the world’s deadliest individuals. Maybe this is the reason Geminis take such a long time to make up their brains - they’re thinking whether to kill somebody or not. Their indecisiveness is something that makes them zodiac signs most likely to be a serial killer. Types Of Serial Killers According To The Zodiac Signs Virgo: August 23rd - September 22nd We surmise there truly is a limit with these perfectionists. Virgo has brought us Rodney Alcala, who killed 130 individuals, while partner in-Psycho-Virgotude is Henry Lee Lucas (for what reason do as such numerous serial killers have three names?) who figured out how to kill 157 known victims. That is a significant issue. Virgo killers make David Berkowitz’s claim to fame seem paltry. Also, the list goes on, as Virgo’s sequential killer list is especially loaded with terribleness. Virgo is an exceptionally critical sign; when they are pissed, they mean business — and for this situation, savage business. Which makes them one of the Zodiac serial killer signs. Pisces: February 19th - March 20th What makes Pisces one of the Zodiac serial killers? - “He was such a pleasant man.” Yes, that is the thing that they said about that Pisces neighbor, the one everybody loved and thought was so kind and bashful. Definitely, well, hi Pisces underbelly. From John Wayne Gacy (there are the enchantment three names once more) to Dorothea “The Death House Landlady” Puente, nobody truly claims the serial killer moniker like Pisces does, having most likely more serial killers brought into the world under this sign than some other sign. It’s dependably the calm ones. Taurus: April 20th - May 20th The bull’s sympathetic spot is the manner in which their appearance fits the best in the most desired and social environment. They are the individuals who will remember who had harassed them in secondary school, and they are out to get their revenge now. This sign will tempt it’s victim and take all they have taken from them. Gemini: May 21st - June 20th Geminis as the types of serial killers: Recognized as two-faced, these slayer twins will stab you at the back when they would be laughing and reciting to you a sleepy time story. Their game plan is to mindfuck with their victims, inspiring them to believe they’re guiltless and safe. Cancer: June 21st - July 22nd Cancers as serial killer: The crab is extremely connected to family and relationships. So, when something turns sour under this shell, you will know and feel it without a doubt. They’ll seal you and hurt you to give them the affection they require, and when they will be over with that, well, they will simply be over with that completely. Leo: July 23rd - August 22nd Without reputation, Leo can’t live in reality by any means. These naturally born attention seekers would slay to be in the limelight. Truly, unfortunately for you Leo, a serial killer that can impact the world forever is one that pays attention to details. Leo, what you have concealed under the carpet, it won’t last long until when your ego will start speaking: it’s me, it’s me! Virgo: August 23rd - September 22nd This clever and logical sign is a tip of the iceberg when it comes to being evil. Virgo likes to be in long-lasting relationships, and if the spouse they are seeing goes looking somewhere else, it calls for genuine distress in them. If you want to take care of something, don’t forget evil is in the smallest details. Some of the time even the cleanser you use. Libra: September 23rd - October 22nd Anxious, yet extremely very much determined, the Libra is the main zodiac sign that will orgasm when taking revenge on his victims. They’re harsh, yet tender, you’ll adore it and you won’t understand what slayed you. Things aren’t reasonable, however, who said they ought to be? Scorpio: October 23rd - November 21st Scorpions as the types of serial killers: The aura and sexual spark of this sign will leave you thinking and asking yourself what on earth have you done wrong. The answer to this question is nothing in specific. Scorpio prefers the amusement and wants to keep their victims on a wheel that turns sufferings. The physical kind. They won’t murder you straight ahead, despite the fact that you’ll be wishing they would. Sagittarius: November 22nd - December 21st Sagittarius as a killer: This sign is the ideal example of being capacitating and incapacitating in the meantime. Sagittarius, a sign of the archer, the totally psycho, and natural born killer, will attract its prey by hypnotizing in it into a trap. Capricorn: December 22nd - January 19th The Capricorn like something more than getting their hands muddy. They are money oriented and enjoys cash. They won’t do the dirty business themselves and have no problem doing so. What they will do to torture their victims is that they will hire someone to take in charge of a list of detailed pain. Even clean up the mess. Aquarius: January 20th - February 18th They are recognized for being innovators and how they initially create something. They have outrage and hunger for revenge. Known to be shocking criminals that torture their victims until the point that they harm them up to the insane levels. Pisces: February 19th - March 20th Pisces as a serial killer: This fish likes imagination and the least routine life. And because of their compassion and need for detail, they will torture themselves as much as they torture their victims. Some of them just get happiness out of sufferings. Top 4 Zodiac Signs With The Most Notorious Serial Killers Hence from the analysis of astrology and reports from the police, we have listed out four zodiac signs who are most likely to be serial killers. Just because someone may have been born under one of these signs in no way guarantees they are capable of cold blood murder, nor does it mean that the other signs in the Zodiac are any less capable, but there’s a clear trend here that’s worth exploring. Gemini (May 21 - June 20) David “Son of Sam” Berkowitz...6 victims Danny “The Gainesville Ripper” Rolling...8 victims Jeffrey “The Milwaukee Cannibal” Dahmer...17 victims Samuel Little...93 victims Some of the most notorious serial killers like Jeffrey Dahmer and David Berkowitz (the Son of Sam) were born under this mutable air sign. Gemini is typically very intellectual with an endless curiosity and willingness to learn about any topic. They can be very charismatic and charming, and can hold a conversation with just about anyone. The Gemini glyph is the twins, and this represents the dual, changeable nature of this sign. Gemini is no stranger to being called two faced, and behind that charming façade, there can lurk a really sociopathic persona with a maniacal streak that they are experts at concealing. Moreover, being associated with the element of air, which is primarily about intellect and communication, Gemini can seriously lack empathy and remorse, and have been known to have a seriously mischievous, almost morbid sense of humor, cultivating the perfect temperament to kill in cold blood. Pisces (February 19 - March 20) Dennis “The BTK Killer” Rader...10 victims Richard “The Night Stalker” Ramirez...14 victims John Wayne “The Clown Killer” Gacy...33+ victims Gary “The Green River Killer” Ridgway...49-90+ victims Pisces is a water sign that is known for their deeply empathetic disposition, making it seem pretty counterintuitive that it’s one of the most common signs for serial killers to have. Because of the changeable nature of the sign, Pisces can end up feeling too many emotions at once: their own, that of their family and friends, their dog, they soak it all in, and if these emotions are extremely negative, then this can twist the soul of a typically sweet and soft natured Pisces into something incredibly malevolent. When overtaken by intense emotions, Pisces wishes to escape reality by any means possible, and may even try to lose themselves in the overpowering experience of death-even if it means having to summon the grim reaper themselves. Sounds pretty sinister, right? John Wayne Gacy didn’t seem to think so. Virgo (August 23 - September 22) Richard “The Angel of Death” Angelo...8 victims Rodney “The Dating Game Killer” Alcala...8-130 victims Albert “The Boston Strangler” DeSalvo...13 victims Ed “Psycho” Gein...2+ victims Serial killer Ed Gein is escorted from the Wisconsin State Crime Laboratory to the county jail after confessing to two murders. (Photo: Bettmann Archive via Getty Images) Most people associate the sign of Virgo with overzealous perfectionists who may be perhaps a tad neurotic, but harmless, nonetheless. So it may come as a surprise that many a serial killer has been born under this mutable earth sign. Virgos are known for their meticulous, systematic, and efficient nature. A serial killer with this sign could use these traits to obsessively plan every step they’d need to get away with a crime and go perfectly under the radar. Virgos are sometimes known to be overly critical and judgmental. When used for good, this can be used to improve the world around them, however when taken to the extreme, a Virgo may no longer be able to see the person behind their flaws, losing their humanity in the process. Sagittarius (November 22 - December 21) Richard “The Torso Killer” Cottingham...6+ victims Carlton “The Stocking Strangler” Gary...7 victims Alton Coleman...8 victims Ted Bundy...30-36+ victims This mutable fire sign is best known for their love of excitement and adventure. Usually Sag channels all that need for excitement into endless trips around the world, meticulously documenting them all on Instagram, making the rest of us green with envy. However, sometimes Sag’s thrill seeking can take a darker turn. Fire signs in general are known to steamroll heavy emotions that could get in the way of their fun, giving them a tendency to be less empathetic than other signs. So when skydiving and rock climbing no longer suffice in providing the ultimate adrenaline rush, killing may start to seem like a good idea- at least Ted Bundy seemed to think so. Again, to all the Geminis, Virgos, Sagittarians, Pisceans, out there, and to those who know them- don’t freak. No, you aren’t the next Richard Ramirez. There’s a whole mess of factors that contribute to why someone is driven to kill, and astrology is just another way for us to try to make sense of the unimaginable. We may never know for sure what creates a killer, but the pattern here is hard to deny.
