Simple bail mehndi design front

Mehndi or Henna has an important meaning in Indian culture. It is associated with good luck and people apply it to embellish hands on special occasions and festivals such as Diwali, Karwa Chauth, Eid etc. In the Indian wedding, an exclusive mehndi ceremony is organized one night before the D-Day where not only brides but brides also apply henna on their hands and legs. Henna's designs are synonymous with creative patterns, detailed and elaborate that have artistic lines and beautiful elements such as jaali, flowers, motifs, etc. that accentuate the overall look. Applying Mehendi is an art, and you have to practice regularly to master it! Well to start, you can always try simple mehndi designs on glass or on paper. As you master art you can curve in intricate designs. To help you, here we have curated easy mehndi design ideas with images that look beautiful and are easy to apply. How should a beginner begin to practice Mehndi drawings? If you are a beginner, it might seem difficult to apply an intricate full-handed mehndi, so you can start by drawing on a paper and a sheet of glass. Start with simple designs like leaves, flowers, circles, boxes and outlines of bugs. Later, you can practice mehndi cones and design simple pattern on paper piece or a hand. Once you have firm on cone it is possible to precede with some significant models like tikki designs and many others. Beautiful and easy Mehndi drawings for beginners 1. Flower Mehndi Design Floral Mehndi Design is easy to create. It is one of the most worn and traditional mehndi designs. The beauty of this design is found in flowers that are made in all fingers and behind the palm. 2. Arab Mehendi on Little Finger If you do not want to apply mehndi on all your hand, then you can simply go for this unique mehndi design that covers the small finger with your wrist. On the wrist, you can draw a patternthat seems to be enough in fashion, while small flowers emphasize design and andstunning on your finger. 3. Abstract Mehndi design for beginners This modern mehndi design is a blend of different styles. This is one of the trendsetters and a perfect consideration for girls who go to college and for those who do not like elaborate designs. 4. Hanging Henna Design Next to our mehndi design list is this classic henna design with a main pattern elaborated in the middle of the palm and a simple design on your fingers. The hanging name is derived from the way this design is applied. You can put this design together by drawing a jhumka or a bird with a cage at the center of your palm line design and screw on your fingers. 5. Easy to create Jaali Design In search of an intricate design Henna which is easy to apply, too, try this design jaali. This full-hand mehndi design has a network as a model. The Jaali motifs are symmetrically designed. If you want to keep it simple, you can go for a traditional mandala design as shown in the image above. 6. Glove Patterned Mehndi Design As the name of this design suggests, it looks like a fancy glove! This design of the rear hand features chess models along with the patterns on the edge. You can take your mehndi a high heel by drawing great motifs on the finger of the index. 7. Simmetrical Mehndi Design symmetrical designs will make your mehndi interesting and intricate. You can add a fun element like animal shapes or a monument like Taj Mahal on your front hand mehndi design. This design shown in the image includes the mandala to the center that integrates with the entire design. 8. Stylish Henna Design Surely, this is one of the most beautiful but easy back mehndi designs for the hands. Concentric circles along with dotted highlights are attractive to the eyes. The delicate pattern on the fingers completes the design while improving the appearance9. Track pattern This is yet another simple and easy mehndi design, perfect for girls and women. This is quick to draw and does not involve any intricacy. You canthis trail pattern on the back of the hand as well. 10. Peacock or Mor Henna Design A peacock design is quite trendy and is easy to apply. This unique peacock pattern covers almost the whole palm, making it a mehndi design full of class. The body of the peacock is embellished with intricate patterns and elements that add life to all design. 11. Henna drawings with elements This design follows a particular theme that boasts traditional elements such as kalash, flowers, pots, birds, bells along with the dotted model. These elements do not cover the whole hand, which is why this design looks unique and different. Easy Arabic Mehndi Designs for Girls Arabic mehndi design features leafy and flowery paths starting from the index and ending on the wrist. It can be applied on both hands or on one hand. If you want it you can apply it on both sides i.e. on the back and front of the hand. As the name says, the Arabic mehndi design was born from the Arab countries and today this design is also popular in Asian countries. 1. Lace model As the name of this design suggests, it features a lace as a pattern on the back of the hand along with motifs such as the middle piece. This lace design starts beautifully from the index finger and ends with the intricate design around the wrist. 2. Heavy Cornered Arabic Mehndi Design This intricate design is embellished on one side. The rest of the hand is left empty making this design stand out! For amp-up the look, you can add small items like flowers on your fingers. 3.
