Irony worksheets 6th grade

Irony concerns expectations and opposites. I teach students that there are three types of irony. Verbal irony is when a character or person says something, but it means the complete opposite. This is more commonly known as sarcasm. The dramatic irony is when a character believes something and the opposite is true. The audience knows the character is working under false beliefs. This can lead to exhilarating or tragic situations. The syctual irony is when the complete opposite of what is expected occurs. When most people think of irony, they are thinking about situational irony. Of all the concepts with which my students struggle, irony can be the most challenging. These resources have been useful in my attempts. I hope you too can find some use for these. Iron lesson 1 Here is a great worksheet to help students practice or review irony. As defined, Irony is the use of words to convey a meaning that is in front of what is actually said. For example, a driver whose license was confiscated by a traffic officer may"Thank you officer, now that you have my license I can't drive" In this situation, the driver was angry and irritated to what happened. But instead ofexpressing his anger, the driver used Irony i.e. thanking the officer for getting his license. There are three types of irony. They are: Situation of verbal irony of fate It is the use of words to present a meaning different from what the speaker says. Almost all the time, the person intentionally and consciously uses the Minute Ironia to be understood as meaning something different from what his words 'literal meaning. Verbal Irony is the easiest to identify among the three types. It is also the most commonly used. Our previous example is a sort of Minute Ironia. When the driver thanked the traffic officer, he wanted his words to mean he wasn't at all entertained. Other examples are: After examining the poor test score of a student, the teacher says: "It will certainly end the year with the highest honors." A man tastes the delicious meal of his wife cooked at home and exclaims: "I will never eat this food again." After kissing, the groom, with a smile on his face, whispered to his bride, "This is the day I always want to forget." Irony Situation Ironia occurs when what is expected and intended to happen does not happen. Instead, the exact opposite occurs. The result could be both serious and comic. This type of Irony is used adds more meaning to a situation that makes it more interesting and inspiring from thought. For example, a man whose house was in the woods set a booby trap to protect him from wild animals. One night, as he walked, man did not see the trap. He's hurt. The booby trap was intended to protect the man, but instead hurt him. This is exactly the opposite of what was expected. Examples are: Dr. Johnson smokes a pack of cigarettes a day. Our boss, the owner of a great construction company, notFix the broken ceiling of his house. The defense attorney did not acquit his son in a case. Dramatic Ironic Dramatic Irony happens when the audience or readers are aware of something, something,the character of a movie or a story does not know. Often, such a character acts or moves in a way, which is contrary or different from what the public or readers expect him or her to do. This type of Irony creates intense feelings like humor and suspense. Dramatic Irony is used to convey emotions more intensely. It gives the public or readers a sense of thrill and excitement. In a horror film for example, the character enters a dark room while listening to a woman's voice. The audience is not afraid because they knew in advance that the voice of the woman was just the one of the character's mother. Other examples include: In "Saving Private Ryan", the group of soldiers was hopeless that they could find soldier James Ryan alive, but the audience knew from the beginning that soldier Ryan went to live until his last years. His wife believed his husband died in an air accident and the public knew that his husband had survived. Readers knew Caitlyn's character in the novel "A Song for Caitlin" would die, but the other characters didn't even know she was sick.
